

NATUR'GUM

The 1st dietary supplement in 100% natural chewing gum

Strapharm is always on the look out for **innovative** and **natural** alternatives!
To satisfy our customer's needs, we have launched a **new support** for food supplements.
NATUR'GUM is the perfect solution if you are willing to develop new products in the all-natural segment of the market.

For a 100% natural concept with a high added value:

Pick NATUR'GUM and add natural active ingredients of your choice.

By choosing NATUR'GUM:

You support **sustainable agriculture**
You promote a solution **against** the problems of **environmental pollution**

Our natural gum is from the rainforests Southeast of Mexico. Producers activity is based on sustainable development. The sustainable management is certified by the FCS (Forest Stewardship Council). NATUR'GUM is issued from an ancestral know-how. It comes from a tree (*Manilkara bidentata*) whose sap is boiled, dehydrated, then manually stretched and molded to solidify and to give a 100% natural gum base.

NATUR'GUM is:

- 100% NATURAL gum based
- 100% biodegradable
- Natural ingredients
- Without polymers
- Environmentally friendly
- From sustainably managed forests

2 FORMS ARE AVAILABLE:

- Uncoated, extruded & laminated chewing gum, for a more raw and natural aspect.
- Coated, extruded & laminated chewing gum, without colouring agents.
